PRESS RELEASE

TO: ALL MEDIA HOUSES **11th April, 2026**
For Immediate Release

ECG CONTINUES TRANSFORMER UPGRADE EXERCISE WITH PHASE TWO AT LASHIBI PRIMARY SUBSTATION

The Electricity Company of Ghana (ECG) wishes to inform its valued customers and the general public of the successful completion of Phase One of the Government's ongoing Transformer Replacement and Upgrade Programme at the Nmai Dzorn Primary Substation.

Following this milestone, ECG will proceed with Phase Two of the project at the Lashibi Primary Substation. The Phase Two is scheduled to commence on Tuesday, 14th April 2026, and will be completed on Thursday, 16th April 2026.

As with Phase One, the exercise will involve brief planned power outages in the affected areas to ensure the safety of ECG personnel and the successful execution of the works. Detailed outage schedule, including specific time blocks and groupings, has been attached to this press release and will also be communicated through ECG's official communication channels.

ECG assures all customers that appropriate measures have been put in place to minimise the duration and impact of the outages. Customers are kindly advised to plan accordingly during this period.

This upgrade forms part of the Government's broader commitment to strengthening infrastructure, reducing system overloads, and delivering improved and reliable electricity services.

ECG sincerely appreciates the continued patience, cooperation, and understanding of the public as these essential improvements are carried out..

SIGNED
DR CHARLES NII AYIKU AYIKU, APR
AG. DIRECTOR, COMMUNICATIONS
